

Balancing generalized/specialized Scribe document

Please note and remind yourself frequently: The intent of this document is for it to lead to a public-facing record of your workgroup's activity. By the day of the Summit it will be accessible to anyone at the Summit, and after the Summit it will be turned into a fully public-facing document. This means that although you should take notes however makes sense for you, it will be important to refine the notes to be comprehensible to others.

Guiding Committee: None before Summit

Moderator: Joanne Davila

Scribe: Tony Papa

Describe intended product of the workgroup:

Who is willing to lead on this topic (future efforts at the Summit and beyond):

Main Notes Area

Themes of discussion:

- 1) The core value is alleviating suffering
- 2) Key generalized domain proposed:
 - a. Epistemology as a starting point
 - i. Teaching scientific thinking to create knowledge

 - iii. How to generate a meaningful question
- 3) Other general domains proposed:
 - a. Social determinates of health
 - b. Diversity, equity and inclusion
 - c. Transdiagnostic mechanisms of change
 - d. Principles of behavior change
 - e. History of the development of clinical science theories/epistemology
 - f. Ethics
 - g. Methods/Statistics
 - h. Implementation/dissemination
 - i. Training in collaboration & cross-disciplinary work
- 4) Specialization could be topic specific at the program, lab or student level
- 5) Must account for barriers /practicalities inherent in the structures of academia

Parking Lot

The parking lot is for anything that was noted during the group that does not fit well on the topic. You may wish to refer this information to other groups after your group meets.

Must pay attention to the economic incentives that are barriers to dissemination even as we focus on the science
