

An Academy of Psychological Clinical Science–Funded

DISSEMINATION & IMPLEMENTATION SCIENCE SPEAKER SERIES

About The Series

This year-long, virtual dissemination and implementation science speaker series, funded by the Academy of Psychological Clinical Science (APCS), is designed to teach all trainees (master's students, doctoral students, clinical interns, postdoctoral fellows, etc.) across clinical science programs about dissemination and implementation science. Although trainees at APCS programs are especially encouraged to attend, all are welcome!

Sign Up!
